

# DENTAL OFFICE

PEACHTREE CORNERS, GA

## Project Details

Carter Construction Partners was proud to be selected for Design/Build services for the interior build out of an upscale Dental Office in Peachtree Corners, Ga.

Successfully designed, permitted and built this office in five months

Our greatest challenge on this project was to core (13) 3"-5" holes within an existing slab above an existing operating tenant and run all utilities to 8 operatory rooms, new plumbing locations and new restrooms.
